Antenna Board and Cables

Note: The antenna cables are permanently attached to the antenna board. The cables and board are removed from the enclosure as a unit.

Tools

The only tools required for this procedure are a Phillips #1 screwdriver and a flatblade screwdriver.

Preliminary Steps

Before you begin, open the computer, lay it on its side with the access side facing up, and remove the following:
*   **Front inlet fan assembly**
*   **Heatsink cover**
*   **Processor inlet frame (Dual 2.0/2.3 GHz)** or **Processor inlet frame (Quad)**
*   **Processor (Dual 2.0/2.3 GHz)** or **Processor (Quad)**
*   **Processor support bar**
*   **All graphics and PCI Express cards**
*   **AirPort Extreme/Bluetooth combo card and runway card**
*   **Rear exhaust fan assembly**
*   **PCI card guide**
*   **Speaker/fan assembly**
*   **Front panel board**
*   **PCI divider**
*   **Logic board**
